PACKAGES

Canzonetta: 3 x 1 hour sessions

This package is perfect when you have only one aria that you need to prepare for a competition. Most singers would require 3 x 1 hour sessions with Success On Stage to add depth to the characterisation and gain confidence in their interpretation. At the first session, you will perform the aria and then start delving into the text with Leslie (without singing) to discover your take on what the aria is really about and any ulterior motives.

\$165 (a saving of \$30)

Vincerò: 6 x 1 hour sessions

You have 2-3 arias that you need to prepare. Following the pattern of text exploration set by the Canzonetta Package, you will gain confidence in the techniques learned and will need less and less time on each aria as a consequence. So instead of requiring 6-9 sessions, you should only need 5! That's already a saving of

\$300 (a saving of \$90)

Vittoria: 9 x 1 hour sessions

At the top competitive level, you will be required to prepare five contrasting arias. As a finalist in Opera Foundation Australia competitions, Leslie's advice will transcend the characterisation aspect and include strategies and tactics that will be valuable to you once you get into the finals.

\$450 (a saving of \$135)

Which package is right for you?

- For audition or competition preparation, look at the **Canzonetta**, **Vincero** or **Vittoria** packages and select the one that suits the number of arias required.
- For singing exams, I would suggest the **Canzonetta** package, though it will depend on the number of items required in your exam.
- For a complete role, consider the **Vittoria** package
- If you are serious about your stagecraft and characterisation but would like more flexibility, then the Reward card would suit you best.
